

Pranav Varshney

Software Engineer — .NET & Angular Developer — Cloud & DevOps

Bengaluru, India

prnvvarshney@gmail.com — linkedin.com/in/pranavval

Professional Summary

B.Tech graduate in Computer Science Engineering with a specialization in Cloud Computing and Virtualization. Results-driven software engineer skilled in .NET, Angular, and cloud technologies. Hands-on experience with AWS, Azure, and DevOps tools, building scalable systems, automating deployments, and optimizing performance through CI/CD pipelines. Strong collaborator with cross-functional teams, committed to developing secure, high-performance, and user-centric enterprise applications.

Technical Skills

Languages: C#, Java, HTML, CSS, TypeScript, JavaScript

Frameworks & Tools: .NET Core, .NET Framework, ASP.NET Web API, Angular, Bootstrap, REST APIs

Cloud & DevOps: AWS, Azure, Docker, Jenkins, Proxmox, GitHub Actions, CI/CD, Cloud Security, DevSecOps

Databases: MySQL, MongoDB (basic)

Monitoring & Automation: Grafana, Jenkins, Git, Automation Scripting

Design & UI/UX: Figma, Adobe Photoshop, Illustrator

Productivity: Microsoft Office (Word, Excel, PowerPoint, Power BI, Outlook)

Professional Experience

Software Engineer, Capgemini

Dec 2024 – Present

Client: NBCUniversal Comcast — Bengaluru, India

- Currently part of the **Score Team**, responsible for developing and maintaining global sports and Olympics management platforms used to organize, monitor, and analyze major sporting events worldwide.
- Develop and enhance full-stack modules using Angular and .NET technologies, ensuring scalable, reliable, and data-driven performance for high-traffic event management systems.
- Collaborate with international stakeholders to implement real-time data synchronization and result tracking features for large-scale, live sporting events.
- Contribute to backend optimization, improving API performance and database operations to handle high user loads during peak event coverage.
- Support DevOps pipelines and CI/CD workflows, ensuring automated builds, deployments, and quality checks across staging and production environments.
- Previously contributed to an **R&D project under Capgemini–NBCU partnership**, building a University Learning Platform to enable continuous employee upskilling.
- Designed and implemented the platform's frontend with Angular and backend with .NET, integrated secure APIs, and optimized MySQL queries for faster data delivery.

- Collaborated closely with product owners, designers, and QA engineers to deliver the project within Agile sprint cycles, aligning with NBCU's innovation roadmap.

Full Stack Developer Intern, Bharat Intern

Jul 2023 – Aug 2023

Remote

- Developed a real-time video conferencing application using Angular, Node.js, and WebRTC with integrated video, audio, and chat modules.
- Built secure backend APIs and MySQL database for efficient data handling and user management.
- Delivered a fully functional and responsive solution within six weeks, ensuring stable multi-user performance.

Education

Bachelor of Technology in Computer Science Engineering

Specialization: Cloud Computing & Virtualization

Sep 2020 – May 2024

GLA University, Mathura, India

Intermediate (PCM)

Apr 2017 – May 2019

CR Oasis Convent Sr. Secondary School

High School

Apr 2015 – Dec 2017

Marehra Public School

Certifications & Achievements

- Microsoft Certified: Azure Developer Associate (2025)
- 10+ Google Cloud and EC-Council badges (Generative AI, Cloud Security, Network Configuration, Ethical Hacking)
- Practical DevSecOps with GitHub Actions (EC-Council)
- Agile Project Management (Udemy)
- IBM Cloud Computing & Virtualization Graduate (2024)
- Generative AI Specialist (DeepLearning.AI, 2025)
- Certifications include: Generative AI, Extend Gemini with Tool Use, Configure Juniper SRX Router using J-Web, Create In-house Hacking Lab, Android Developer.
- Recognized for Proxmox-based private cloud deployment and AWS chatbot implementation impacting 300+ users.

Leadership & Activities

- Design and Content Head, Androkit Club – led visual and technical initiatives for club promotions.
- Graphic Design Lead, Brij Literature Festival – directed branding and digital content for university events.
- Design Head, The Literario – managed visual identity and creative campaigns for literature and cultural events.
